Mission Made Manifest: Emmanuel College Celebrates Centennial Year

Throughout 2019, Emmanuel College will honor the 100th anniversary of its Catholic educational mission. At an array of Centennial events—both on and beyond Emmanuel's Boston campus—the College will celebrate a century of changed lives and its ever-renewing commitment to a more just and peaceful world. In addition, the College will pay tribute to the transformative leadership of Sister Janet Eisner, SNDdeN, who, 40 years after her inauguration as president, continues to keep Emmanuel's mission rich and relevant for new generations of students.

In 1919, the Sisters of Notre Dame de Namur opened Emmanuel as the first Catholic college for women in New England. Inspired by the belief that education is “the greatest work on earth,” they provided an education rooted in the liberal arts and sciences, Catholic values and a strong sense of community. In the decades that followed, Emmanuel served as a springboard to careers and lives that thousands of students—many the first in their families to attend college—could only dream of previously.

Today, Emmanuel is a dynamic, co-educational, residential institution with a 17-acre main campus in the heart of Boston's educational, scientific, cultural and medical communities. And it is thriving in ways its founders could only have imagined. Recently the College introduced new academic programs in high-demand fields, including a four-year undergraduate Bachelor of Science in Nursing program. In addition, the College affirmed its commitment to engaging all students in internships with businesses, nonprofits and startups throughout Greater Boston. In Fall 2018, Emmanuel welcomed its largest-ever first-year class, bringing its full-time undergraduate enrollment to 1,975.

A creative and entrepreneurial spirit has characterized Emmanuel from the beginning, and has been especially evident over the last two decades. The College's decision, in 2000, to admit young men at the undergraduate level, paired with its entrance into a unique partnership with Merck & Co., created the conditions for the tripling of Emmanuel's enrollment and the transformation of its facilities and programs. Changes to the campus included the construction of the Jean Yawkey Center, a state-of-the-art student center with a new gymnasium, and the Maureen Murphy Wilkens Science Center, which includes 14 laboratories for instruction and research in the sciences.

In the Fall of 2018, Emmanuel opened a new 18-story, apartment-style residence hall, the largest college building in history. This new residence hall is a towering statement on the vibrancy of Emmanuel today, and in addition to 692-beds for upper-class students, features a dance studio, convenience store, multimedia room, Dunkin' Donuts and multi-use spaces for the entire college community.

Under Sister Janet's leadership, the mission has grown in depth and breadth. This is reflected in the Cardinal Sean Patrick O'Malley Center for Mission and Ministry, which assures continued understanding of, and participation in, the Sisters of Notre Dame's global mission of “making known God's goodness...educating for life.” Through the Center, Emmanuel students engage in service opportunities in Boston and beyond.

Centennial Year events will include vibrant lectures and discussions, a historical exhibit, academic symposia, liturgies, service projects and joyful opportunities to honor Emmanuel's past, present and future. Eastern Catholic Churches

The Roman Catholic Church is a worldwide family of Churches. This family has two large branches — Eastern and Western, and within each of those there are several further groupings.

The Western branch consists of the Latin Church, the Ambrosian Church and the Mozarabic Church. The Latin is the largest of the western churches and of all the Roman Catholic Churches in the world.

The several Eastern Catholic Churches fall into one or another of several large traditions: Alexandrian, Antiochean, Armenian, Chaldean or Byzantine.

Those Eastern Catholic Churches designated with an * before them have parishes or missions here in the archdiocese and are listed on the following pages. While each is within the territory of the archdiocese, each has its own eparch (diocesan bishop).

CLIENT TESTIMONIALS

We couldn't be happier with our new Math, Science and Technology Wing and over all renovations to our campus. Internally our school looks brand new. I highly recommend Steve Habeeb and his Associates from developing your Master Plan through completion of the final project. They were always available for any unforeseen circumstances. The staff is highly professional and wonderful to work with.

Sarah J. Adanti, Advancement Director, East Catholic HS

Now that the Rectory construction is complete I wanted to take a moment to thank you for the wonderful design work you provided, not only on this project, but also on the construction of the kitchen and the lower church. ... I believe any parish or school will be fortunate to have you serving as their architect or planner for their projects.

Father Christopher Hickey, Saint Mary's Parish

...Our experience with Habeeb & Associates has been very positive. The initial assessment was honest and complete. The design for the addition is well done and works well with the existing building. Deadlines are always met...

Sister Barbara A. Barry, SNDdeN, President Notre Dame Academy

Our experience in working with you has been very positive. Starting with the Master Planning Process, and moving through design to construction you and your staff provided us the leadership, direction and professionalism that we were looking for.

Thank You.

St. Peter's Basilica, Vatican, is the largest church in the world. Its size creates special challenges for an organ. Large scaling of an instrument creates excessive volume near the organ, but still not enough to fill the entire sanctuary. The Vatican chose an Allen Organ with a flexible audio solution to resolve this challenge. During the 2017 Christmas Eve celebration, a new Allen GeniSys Organ was used throughout the Mass, as heard worldwide in a live telecast.

Allen Organ Company has installed organs in many prestigious institutions. Now, including the Vatican on the top of this list is humbling.

I offer a huge "thank you" and congratulations to all involved in the many efforts and events over the years that led to this amazing story.

Sincerely,

Steven A. Markowitz, President
Allen Organ Company
